

Serial No. 10/753,297

**RECEIVED  
CENTRAL FAX CENTER  
MAR 19 2007****I. AMENDMENTS TO THE CLAIMS**

1. (Currently amended) A method for deploying an intelligent agenda program on a computer, the method comprising the steps of:
  - installing the intelligent agenda program on the computer;
  - wherein the intelligent agenda program displays an outline on a plurality of slides created by a presentation program; and
  - wherein the outline displays a contextual location of a current slide in a presentation;
  - and
  - wherein the intelligent agenda program automatically creates the outline from a title of each of the slides in the presentation.
2. (Currently amended) The method of claim 1 wherein the intelligent agenda program ~~automatically creates~~ allows a user to re-organize the outline from a title of each of the slides.
3. (Original) The method of claim 1 wherein the intelligent agenda program comprises the steps of:
  - accepting a user configured format of the outline; and
  - displaying the outline on the slides in the user configured format.
4. (Original) The method of claim 3 wherein the intelligent agenda program comprises the steps of:
  - determining whether a user has configured a display option; and
  - responsive to the determination that the user has not configured the display option, displaying the outline with all of the topics in the outline expanded.
5. (Currently amended) The method of claim 3 wherein the intelligent agenda program comprises the steps of:

Serial No. 10/753,297

- responsive to the determination that the user has configured ~~the~~ a display option,  
determining whether the user has selected an outline expansion option; and  
responsive to the determination that the user has selected the outline expansion  
option, displaying the outline according to the outline expansion option selected by the user.
6. (Original) The method of claim 5 wherein the outline expansion option is to expand all levels  
of the outline.
7. (Original) The method of claim 5 wherein the outline expansion option is to expand a user-  
configurable number of levels of the outline.
8. (Original) The method of claim 5 wherein the outline expansion option is to expand only the  
current topic in an outline.
9. (Currently amended) The method of claim 3 wherein the intelligent agenda program  
comprises the steps of:  
responsive to the determination that the user has configured ~~the~~ a display option,  
determining whether the user has limited the number of displayed lines on the outline; and  
responsive to the determination that the user has limited the number of lines on the  
outline, modifying the outline to the number of displayed lines limited by the user.
10. (Original) The method of claim 9 wherein the immediately adjacent topics are displayed in  
any remaining lines.
11. (Original) The method of claim 9 wherein the topics above the current topic are displayed,  
subject to the user limited number of lines, and then the immediately adjacent topics are  
displayed, subject to the user limited number of lines.
12. (Currently amended) The method of claim 3 wherein the intelligent agenda program  
comprises the steps of:

Serial No. 10/753,297

- responsive to the determination that the user has configured ~~the~~ a display option,  
determining whether the user has limited the type of displayed topics on the outline; and  
responsive to the determination that the user has limited the number of topics on the  
outline, modifying the outline to the type of displayed topics limited by the user.
13. (Original) The method of claim 12 wherein the outline does not display the previous topics.
14. (Original) The method of claim 12 wherein the outline does not display the subsequent  
topics.
15. (Original) The method of claim 3 wherein the user configured format is a color and a line  
associated with the outline.
16. (Original) The method of claim 3 wherein the user configured format is a size of the outline.
17. (Original) The method of claim 3 wherein the user configured format is a layout of the  
outline.
18. (Currently amended) The method of claim 3 wherein the user configured format ~~is~~ pertains to  
a picture associated with the outline.
19. (Currently amended) The method of claim 3 wherein the user configured format pertains to ~~is~~  
a text box associated with the outline.
20. (Currently amended) The method of claim 3 wherein the user configured format pertains to ~~is~~  
a user defined text ~~web~~ message associated with the outline.
21. (Original) The method of claim 3 wherein the intelligent agenda contains a timer displaying  
the approximate duration of each slide.
22. (Currently amended) A program product operable on a computer comprising:  
a computer-usable medium;

Serial No. 10/753,297

an intelligent agenda program installed on the computer-usable medium;

wherein the intelligent agenda program displays an outline on a plurality of slides created by a presentation program; and

wherein the outline displays a contextual location of a current slide in a presentation;

and

wherein the intelligent agenda program automatically creates the outline from a title of each of the slides in the presentation.

23. (Currently amended) The program product of claim 22 wherein the intelligent agenda program ~~automatically creates~~ allows a user to re-organize the outline from a title of each of the slides.

24. (Original) The program product of claim 22 wherein the intelligent agenda program comprises:

instructions for accepting a user configured format of the outline; and

instructions for displaying the outline on the slides in the user configured format.

25. (Original) The program product of claim 24 wherein the intelligent agenda program comprises:

instructions for determining whether a user has configured a display option; and

responsive to the determination that the user has not configured the display option,

instructions for displaying the outline with all of the topics in the outline expanded.

26. (Currently amended) The program product of claim 24 wherein the intelligent agenda program comprises:

responsive to the determination that the user has configured ~~the a~~ display option,

instructions for determining whether the user has selected an outline expansion option; and

Serial No. 10/753,297

responsive to the determination that the user has selected the outline expansion option, instructions for displaying the outline according to the outline expansion option selected by the user.

27. (Original) The program product of claim 26 wherein the outline expansion option is to expand all levels of the outline.

28. (Original) The program product of claim 26 wherein the outline expansion option is to expand a user-configurable number of levels of the outline.

29. (Original) The program product of claim 26 wherein the outline expansion option is to expand only the current topic in an outline.

30. (Currently amended) The program product of claim 24 wherein the intelligent agenda program comprises:

responsive to the determination that the user has configured ~~the~~ a display option, instructions for determining whether the user has limited the number of displayed lines on the outline; and

responsive to the determination that the user has limited the number of lines on the outline, instructions for modifying the outline to the number of displayed lines limited by the user.

31. (Original) The program product of claim 30 wherein the immediately adjacent topics are displayed in any remaining lines.

32. (Original) The program product of claim 30 wherein the topics above the current topic are displayed, subject to the user limited number of lines, and then the immediately adjacent topics are displayed, subject to the user limited number of lines.

Serial No. 10/753,297

33. (Currently amended) The program product of claim 24 wherein the intelligent agenda program comprises:

responsive to the determination that the user has configured ~~the~~ a display option, instructions for determining whether the user has limited the type of displayed topics on the outline; and

responsive to the determination that the user has limited the number of topics on the outline, instructions for modifying the outline to the type of displayed topics limited by the user.

34. (Original) The program product of claim 33 wherein the outline does not display the previous topics.

35. (Original) The program product of claim 33 wherein the outline does not display the subsequent topics.

36. (Original) The program product of claim 24 wherein the user configured format is a color and a line associated with the outline.

37. (Original) The program product of claim 24 wherein the user configured format is a size of the outline.

38. (Original) The program product of claim 24 wherein the user configured format is a layout of the outline.

39. (Currently amended) The program product of claim 24 wherein the user configured format pertains to a picture associated with the outline.

40. (Currently amended) The program product of claim 24 wherein the user configured format pertains to a text box associated with the outline.

Serial No. 10/753,297

41. (Currently amended) The program product of claim 24 wherein the user configured format pertains to a user defined textweb message associated with the outline.

42. (Original) The program product of claim 24 wherein the intelligent agenda contains a timer displaying the approximate duration of each slide.

43. (Currently Amended) An apparatus that displays an outline on a plurality of slides created by a presentation program, the apparatus comprising:

means for accepting a user configured format of the outline;

means for displaying the outline on the slides in the user configured format;

means for determining whether a user has configured a display option;

responsive to the determination that the user has not configured the display option,

means for displaying the outline with all of the topics in the outline expanded;

responsive to the determination that the user has configured the display option, means for determining whether the user has selected an outline expansion option;

responsive to the determination that the user has selected the outline expansion option, means for displaying the outline according to the outline expansion option selected by the user;

responsive to the determination that the user has configured the display option, means for determining whether the user has limited the number of displayed lines on the outline;

responsive to the determination that the user has limited the number of lines on the outline, means for modifying the outline to the number of displayed lines limited by the user;

responsive to the determination that the user has configured the display option, means for determining whether the user has limited the type of displayed topics on the outline;

Serial No. 10/753,297

responsive to the determination that the user has limited the number of topics on the outline, means for modifying the outline to the type of displayed topics limited by the user;

wherein the intelligent agenda contains a timer displaying the approximate duration of each slide;

wherein the outline displays a contextual location of a current slide in a presentation;  
and

wherein the intelligent agenda program automatically creates the outline from a title of each of the slides in the presentation.

44. (Original) The apparatus of claim 43 wherein the outline expansion option is to expand all levels of the outline.
45. (Original) The apparatus of claim 43 wherein the outline expansion option is to expand a user-configurable number of levels of the outline.
46. (Original) The apparatus of claim 43 wherein the outline expansion option is to expand only the current topic in an outline.
47. (Original) The apparatus of claim 43 wherein the immediately adjacent topics are displayed in any remaining lines.
48. (Original) The apparatus of claim 43 wherein the topics above the current topic are displayed, subject to the user limited number of lines, and then the immediately adjacent topics are displayed, subject to the user limited number of lines.
49. (Original) The apparatus of claim 43 wherein the outline does not display the previous topics.
50. (Original) The apparatus of claim 43 wherein the outline does not display the subsequent topics.

Serial No. 10/753,297

51. (Original) The apparatus of claim 43 wherein the user configured format is a color and a line associated with the outline.
52. (Original) The apparatus of claim 43 wherein the user configured format is a size of the outline.
53. (Original) The apparatus of claim 43 wherein the user configured format is a layout of the outline.
54. (Currently amended) The apparatus of claim 43 wherein the user configured format pertains to is a picture associated with the outline.
55. (Currently amended) The apparatus of claim 43 wherein the user configured format pertains to is a text box associated with the outline.
56. (Currently amended) The apparatus of claim 43 wherein the user configured format pertains to is a web user defined text message associated with the outline.
